Reshaping the Future of Finance on Solana

Version 2.0 | September 27, 2025

EXECUTIVE SUMMARY

Aurix Future represents a revolutionary approach to decentralized finance on the Solana blockchain, combining ultra-fast transactions with real-world utility and sustainable growth. Built for mass adoption, AURX is designed to reshape the future of finance.

TOKEN INFORMATION

⢠Network: Solana Blockchain

⢠Ticker: AURX

⢠Total Supply: 1,000,000,000 AURX

⢠Circulating Supply: 1,000,000,000 AURX

⢠Launch Date: September 27, 2025

MARKET PERFORMANCE (24h)

⢠Volume: \$34.64K (+2,380.43%)

⢠Traders: 148 (+3,600%)

⢠Growth Since Launch: +3,600%⢠Network: Solana - Fast & Low Fees

KEY INNOVATIONS

⢠Solana Speed: Sub-second transactions⢠Ultra-Low Fees: Minimal transaction costs⢠Real Utility: Built for real-world adoption

⢠Community Driven: Strong holder engagement⢠Sustainable Growth: Long-term value creation

⢠Early Stage: Massive growth potential

ABOUT AURIX FUTURE

Aurix Future (AURX) was launched to reshape the future of finance on the Solana network. With speed, ultra-low fees,

TECHNOLOGY ARCHITECTURE

Solana Blockchain Infrastructure

Aurix Future utilizes the Solana blockchain's revolutionary Proof of History consensus mechanism combined with Proof of Stake for unparalleled speed and efficiency. Our token leverages Solana's high throughput and low fees.

Technical Specifications

⢠Transaction Speed: Sub-second confirmation⢠Network Throughput: 65,000+ TPS (Solana)

⢠Block Time: 400ms average

⢠Finality: Near-instant confirmation

⢠Transaction Fees: Ultra-low (~\$0.00025)
⢠Network: Solana SPL Token Standard

⢠Consensus: Proof of History + Proof of Stake

⢠Validators: 1,900+ active validators

Security Features

⢠Solana Security: Battle-tested blockchain security with billions in TVL and proven track record

⢠SPL Token Standard: Secure and audited token implementation following Solana best practices

⢠Decentralized Network: 1,900+ validators worldwide ensuring network decentralization and security

⢠Immutable Transactions: All transactions are permanently recorded on the Solana blockchain

⢠Community Audited: Open source and transparent

⢠Real-time Monitoring: 24/7 network monitoring

Network Performance

⢠99.9% Uptime: Solana network reliability

⢠Global Infrastructure: Worldwide validator network

⢠Auto-scaling: Network scales with demand

⢠Load balancing: Distributed across validators

⢠Real-time optimization: Continuous improvements

TOKENOMICS & ECONOMICS

Token Distribution

Total Supply: 1,000,000,000 AURX

Distribution Breakdown:

⢠60% Public Sale (600,000,000 AURX)

- Available for public purchase and trading
- Fair launch with no pre-sale advantages

⢠20% Development (200,000,000 AURX)

- Core development and platform expansion
- Technology advancement and maintenance

⢠15% Marketing & Partnerships (150,000,000 AURX)

- Global marketing campaigns and adoption
- Strategic partnerships and integrations

⢠5% Team & Advisors (50,000,000 AURX)

- Team allocation with vesting schedule
- Advisor rewards and long-term alignment

Economic Model

⢠Total Supply: 1,000,000,000 AURX (Fixed)

⢠Circulating Supply: 1,000,000,000 AURX

⢠Inflation Rate: 0% (No new tokens minted)

⢠Network Fees: Ultra-low Solana fees

⢠Utility: Governance, payments, and rewards

Value Proposition

- ⢠Fixed supply ensures scarcity and value
- ⢠Solana network provides speed and low costs
- ⢠Real-world utility drives demand
- ⢠Community governance empowers holders
- ⢠Early stage with massive growth potential

Launch Performance

⢠Launch Date: September 27, 2025

⢠Growth Since Launch: +3,600%

⢠24h Volume: \$34.64K (+2,380.43%)

⢠Active Traders: 148 (+3,600%)

⢠Platform: pump.fun (Solana)

SOLANA ECOSYSTEM ADVANTAGES

Why Solana?

Aurix Future chose Solana as its foundation for several key advantages that make it the ideal blockchain for mass adoption and real-world utility.

Speed & Performance

⢠Transaction Speed: Sub-second confirmations

- Faster than traditional payment systems
- Real-time user experience
- No waiting for confirmations

⢠Network Throughput: 65,000+ TPS

- Handles massive transaction volumes
- Scales with global adoption
- No network congestion issues

⢠Low Latency: 400ms block times

- Near-instant transaction processing
- Superior user experience
- Competitive with Web2 applications

Cost Efficiency

⢠Ultra-Low Fees: ~\$0.00025 per transaction

- 99.9% cheaper than Ethereum
- Enables micro-transactions
- Accessible to all users globally

⢠Predictable Costs: Stable fee structure

- No surprise gas spikes
- Budget-friendly for businesses
- Sustainable for high-volume usage

Developer Ecosystem

⢠Rich Tooling: Comprehensive development tools

⢠Active Community: Thousands of developers

⢠Growing DeFi: Expanding ecosystem of dApps

⢠Institutional Support: Major backing and adoption

Environmental Sustainability

⢠Energy Efficient: Proof of Stake consensus

âd Carbon Noutral: Minimal anvironmental impact

ROADMAP & DEVELOPMENT

Phase 1: Launch & Foundation (Q4 2025)

- ⢠â Token Launch on Solana (September 27, 2025)
- ⢠â pump.fun Integration and Trading
- ⢠â Community Building and Engagement
- ⢠â Website and Documentation Launch
- ⢠ð DEX Listings (Raydium, Orca)
- ⢠ð Community Growth to 1,000+ holders

Phase 2: Expansion (Q1 2026)

- ⢠Major DEX listings and liquidity pools
- ⢠CEX listings on tier-2 exchanges
- ⢠Partnership announcements
- ⢠Mobile wallet integration
- ⢠Community governance implementation
- ⢠Marketing campaign expansion

Phase 3: Utility Development (Q2 2026)

- ⢠DeFi protocol integrations
- ⢠Staking and yield farming opportunities
- ⢠Cross-chain bridge development
- ⢠NFT marketplace integration
- ⢠Developer API and SDK release
- ⢠Enterprise partnership program

Phase 4: Global Adoption (Q3-Q4 2026)

- ⢠Major CEX listings (Binance, Coinbase)
- ⢠Payment processor integrations
- ⢠Merchant adoption program
- ⢠Mobile app ecosystem
- ⢠Global marketing campaigns
- ⢠Institutional adoption initiatives
